

<b>BIP project</b>	
<b>BIP title</b>	Joint workshop of Agriculture-oriented PhD
<b>Coordinating University</b>	University of Catania (Catania, Italy)
<b>Department</b>	Department of Agriculture, Food and Environmental Science
<b>Main academic contact</b>	Prof. Antonio Biondi (antonio.biondi@unict.it)
<b>Main Erasmus contact</b>	di3a.didattica@unict.it
<b>Partner Universities and their role</b>	<p>Universitat Jaume I (Castellon de La Plana, Spain) Universidad de Castilla - La Mancha (Ciudad Real, Spain) Democritus University of Thrace (Orestiada, Greece) Czech University of Life Science Prague (Prague, Czech Republic) Warsaw University of Life Sciences (Warsaw, Poland) Josip Juraj Strossmayer University of Osijek (Osijek, Croatia) University of Thessaly (Volos, Greece)</p> <p>Both teaching staff and students from the above partners will take part to the BIP</p>
<b>Erasmus + programm priority</b>	<i>Participation in democratic life</i> <input type="checkbox"/>
	<i>Digital transformation</i> <input type="checkbox"/>
	<i>Environment and fight against climate change</i> <input checked="" type="checkbox"/>
	<i>Inclusion and diversity</i> <input type="checkbox"/>
	<i>Other</i> <input type="checkbox"/>
<b>Aim and project description</b>	<p>The proposed BIP aims at providing to PhD students on Agriculture oriented PhD programs of the partner Universities specific insights on the current research on sustainable Agriculture, Food and Environmental research as well as on soft skills, such as for example scientific writing and communication. The programme will be organized in the various thematic sections opened by a key note speaker and followed by students of the same research area. Participants will acquire both theoretical and applied knowledge of various aspects of sustainable agriculture, as well as communication skills.</p>
<b>Teaching strategies and expected results</b>	<p>During the in-person activity, interactive seminars will be given by the teaching staff involved, talk sessions will be also performed by second- and third-year PhD students who will present their research projects and obtained results. First year PhD students will present a poster about their projects and planned activities. Besides, at least one-day technical visit to at least two sustainable farms in south east Sicily. During this period the activities will be developed, partly at the Department of Agriculture, Food and Environment, at the Special Didactic Structure of the University of Catania in Ragusa, and partly in the places where the technical visit will be performed.</p>

<b>Study level of the participants</b>	Third cycle – PhD
<b>Language</b>	English
<b>ECTS</b>	3
<b>ISCED code</b>	081 Agriculture
<b>Physical mobility</b>	From 08/6/26 to 12/06/26
<b>Durata mobilità virtuale e periodo di realizzazione rispetto alla mobilità fisica</b>	From 04/05/26 to 30/06/26
